Double Patenting

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer <u>cannot</u> overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 7, 11-13, 21, 22 and 24-37 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1, 16, 3-15 and 22-27 of prior U.S. Patent No. 6,689,228 B2. This is a double patenting rejection.

Response to Arguments

Applicant's arguments filed on 10-18-2004 have been fully considered but they are not persuasive. Applicant's argument that the '228 patent deals with rolling stock rather than rails is not persuasive because the '228 patent defines rolling stock as rails (see col. 2 lines 62-67 for example) specifically running rails and/or railroad rails. Further, in claim 2 of the '228 patent the term "rails" is employed in place of "rolling stock" further showing the interchangeability of these terms in the context of the '228 patent. With respect to applicant's argument with respect to instant claim 7, the "liquid cooling devices" of the instant claims are defined in the specification as submersion basins. See page 5, 1st paragraph of the originally filed specification.

Art Unit: 1742

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott Kastler whose telephone number is (571) 272-1243. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Roy King can be reached on (571) 272-1244. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
